April 2024 Issue

Frances Schramel
Barbara Saba
Paul Conboy Jr.
Ronald Strociak

April is the fourth month of the year in the Gregorian calendar. It was originally the second month of the Roman calendar, before the addition of January and February. No one knows for sure how April got its name. Some say comes from the latin *aperire*, meaning "to open," alluding to the opening of buds in springtime. Others say April was named after Aphrodite or the goddess Eostre. Whatever the case, the onset of April means that the spring has arrived.

Submarine Day

Celebrate America's maritime history with National Submarine Day on April 11th. This holiday commemorates the day the United States got its first modern commissioned submarine and honors the service and sacrifice of those who have served aboard submarines. America's current submarine fleet includes 53 fast-attack subs, 14 ballistic-missile subs, and four guided-missile subs.

No Foolin'

Its exact beginnings are a mystery, but some historians link April Fools' Day to the 16th century, when moved from April 1 to January 1. Those who continued to celebrate the new year on April 1 were called fools.
