From your friends at

July wasn't the original name for this month. On the early Roman calendar, July was called *Quintilis*. Julius Caesar was born in this month, and the name was changed to *Julius*, or *July*, to honor him. Julius Caesar made major reforms to the inaccurate Roman calendar, and his Julian calendar is still used in Eastern Orthodox Christian countries. The Gregorian calendar that exist today in the West is a slightly edited version of the Julian calendar.

In the Good Old Days

In 1924 (100 years ago), the average annual income was \$2,196. The average cost of a new house was \$7,720. The average new car cost \$265. A loaf of bread was 9 cents, and a gallon of milk was 54 cents. You could purchase one gallon of gas for 11cents, stamps were 2 cents each, and a Victoria record player cost \$150. According to the consumer Price Index Calculator, \$1 in 1924 is equivalent to \$18.15 today.
