Betty Barber

May is the fifth month of the year on the Gregorian calendar and one of seven months with 31 days. May is a special month for just about every culture. What's not to love? May signals the feight of spring, and summer's just around the corner! For roman Catholics, it is the month to honor the Virgin Mary; for Buddhists, it marks the buddha's enlightenment; for early pagan cultures, May was the time to celebrate the month's namesake, Maia, the goddess of the life cycle.
